you

Jamo S 602

With 260W of total music power, the S 602 speakers offer excellent value for money but without compromises in design or sound. Give these speakers a listen and compare them to our competitors' products... we promise you will be surprised!

The S 602 speakers are supplied with wall mounts, of course, allowing terrific versatility when it comes to

placement options. Finally, we should also mention that the speakers have removable front fabric grilles. You have the choice of leaving them on or off, but, just as importantly, it also shows that we have nothing to hide with these beauties... quite the opposite!
